CAUTION
 MAY BE IRRITATING TO EYES AND SKIN

See first aid statement and other
 precautions on back panel.

Net Contents 1 Quart (32 fl. oz.)

Your spa's pH should be checked regularly for proper water balance. Local water conditions or heavy usage could cause pH to rise or fall. A unique buffering action in this product will allow for easy and more exact adjustment of pH.

DIRECTIONS FOR USE
ADD ENTIRE CONTENTS OF THIS BOTTLE

1. Add only to freshly filled spa water.
2. When filling or refilling your spa, adjust your pH to a range of 7.2-7.8.
3. Add the entire contents of this product with the filter running.
4. This product will stabilize the pH to the correct range of 7.2-7.8.
5. One quart of this product treats up to 500 gallons.
6. If water clouds, run filter for 4 hours and treat with clarifier.

NOTE: Not for use in spas treated with Baqua-Spa™ or similar sanitizer systems.

CAUTION
HARD WATER AREAS

This product will soften hard water and precipitate calcium, resulting in cloudy water and/or clogged filter. This product should not be used in water containing excessive calcium (above 150ppm).

FIRST AID

In case of eye contact, flush with water for 15 minutes, contact a physician. For skin contact, wash affected area with soap and water thoroughly. In ingested, contact a physician.

STORAGE AND DISPOSAL

Store closed container in a cool, dry and well-ventilated area. When container is empty, rinse thoroughly with water, wrap securely in newspaper and place it in trash collections.
